The NYG&B has three digitization centers around New York State. In 2021, the New York City center opened, followed by Central New York in 2024 and Western New York in 2025. Using our state-of-the-art camera and software, materials are scanned, digitally preserved, and uploaded online to an ever-growing searchable collection of New York historical records. Digitize New York also equips eligible organizations with a digitization kit, which empowers communities to digitize onsite.

Albany Diocesan Cemetery Records

The Albany Diocesan Cemetery Records Collection consists of digitized interment and lot cards documenting burials in Catholic cemeteries across New York's Capital Region. With coverage dating back to the mid-19th century, these records capture generations of individuals and families.

Digitized in partnership with the Albany Diocesan Cemeteries Association, these fully searchable records can help identify burial locations, plot ownership, and family connections within cemetery grounds, providing valuable detail for tracing individual and relationships within the Albany Diocese. Records for deceased persons with dates of death in 1975 or earlier are available.

These records were digitized in partnership with the Albany Diocesan Cemeteries. You can learn more about the organization at: <https://www.capitaldistrictcemeteries.org/>
